- Dual voltage for worldwide use
- 1.8 m power cord
- Travel pouch included
- Easy storage hook for convenient storage
- Foldable handle for easy portability

PHILIPS
sense and simplicity

Highlights

Ionic Care

Ionic conditioning enables anti-static drying. Charged negative ions eliminate static hair, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is smooth and frizz-free hair that shines beautifully.

1600W for gentle drying

This 1600W hairdryer creates the optimum level of airflow and gentle drying power, for beautiful results every day.

Foldable handle

This hairdryer benefits from a foldable handle. The result is a small, compact hairdryer that will pack

easily into even the smallest spaces and that you can take virtually anywhere.

Three flexible settings

The speed and heat required can be easily adjusted to create the perfect end result. Three flexible settings ensure precise and tailored styling.

Cool Shot

A must-have professional function for hair stylists. The Cool Shot button provides an intense burst of cold air. It is used after styling to finish and set the style.

Dual voltage

Dual voltage for worldwide use
